For more information please call: 02 6195328

'Hailed as one of the world's great guitar virtuosos, Eduardo Niebla has created fabulous music from his base in the UK during a career spanning over 3 decades. Inspired by his flamenco roots, his Andalusian heritage and his passion for jazz, classical and other great musical traditions from around the world, he has composed music for films, documentaries and plays, including for the BBC, and has recorded 22 CDs of his original compositions.'

"A stunning collection of originals which work wonderfully well, showing what Jelly Roll Morton called "the Spanish tinge" is still a potent force." (Jazz UK)

Concert appearances have included the Jaipur Festival India, The Olympic Games Greece, the Tbilisi International Jazz Festival, the San Isidro Fiesta Madrid, Glastonbury and the Brecon International Jazz Festivals in the UK, in addition to numerous international tours to Europe, Jordan, Lebanon, South Africa, India and the Baltic States.

*"Astonishing interplay between the principals who wed technical fluidity
and virtuosity to an unashamedly secular passion." (Q Review)*
